

**Kontinental Hockey League Championship –
Russian Men’s Ice Hockey Championship 2018/2019.
Stage 2 Guidelines**

At the end of Stage 1 (regular season) eight teams from each Conference advance to Stage 2 (playoffs). In each Conference two Division winners are seeded first and second, first being the team with more points scored throughout Stage 1. The other five teams in each Conference are seeded third to eighth depending on points scored and regardless of Division placing.

Higher seeds gain home advantage in every round of the playoffs. In each Conference in every round the highest seed plays the lowest seed, with second highest seed playing second lowest etc.

***Note:** If none series goes to Game 5, 6 or 7, it is up to KHL Hockey Operations Vice-President to re-schedule next series to an earlier dates.*

1. In each Conference every playoff tie (**quarterfinals, semifinals and final**) is best-of-seven series. Games 1 and 2 (and, if necessary, Games 5 and 7) are played on higher seeded team’s home ice. The team winning four games advances to the next round. The team losing four games is out of the competition.
